

Draft Maintenance Technician

San Jose

Draft Maintenance Technician's (DMT) visit retail accounts to service all draft lines in their area of responsibility. The service is done on a 2-week cycle or to the distributor's specifications (wine is done quarterly). All lines are to be cleaned to TAP'D Draft standards using industry-approved materials.

DMT's are to visit accounts to be cleaned at a logical time of day when the task can be completed without disrupting retailer's business operations. DMT's are required to perform their task with care for themselves and the retail account that they are servicing. Safety glasses must be worn during the cleaning process.

Hours for each day will be dictated by the cleanings needed to keep the route at the agreed upon frequency level. The route should be completed between 20-30 hours, typically 3 days/week. Hours may increase as accounts number grow. Any overtime needs to be approved by your manager. This position requires use of personal vehicle and a clean driving record; TAP'D Draft Solutions will periodically review driving records to ensure compliance.

Compensation: Hourly wage of \$16.00 per hour + Millage

Job Type: Part-time
